

# Manage your pool remotely

EFFICIENT, SIMPLE TO USE,  
EASY TO CONNECT

*Excellence  
inside!*

# PEARL CONNECT, OFFERS FREEDOM!

Pearl Connect, is an electrical panel that can be used to control filtration, the pump, the underwater lights and other ancillary equipment. Simple, user-friendly and so very practical ! Thanks BWT !

WiFi connection, via  
your home internet  
router

Remote control via a  
smartphone app

Device for private  
pools, single phase  
only

Operating indicator  
light (normal,  
connected, etc.)

**Controls essential  
equipment:**

the filtration pump,  
underwater lights (white  
or colour).

**Controls ancillary  
equipment (up to 5  
equipment items).**

**Integrated antifreeze  
protection.**

**Clogging alarm (pressure  
gauge not included).**

*Direct installation,  
no relays required!  
Simple and fast!*

**Control ancillary equipment  
(up to 5 equipment items)::**

- Counter-swim treadmill
- Booster pump
- Lighting

**Can be used to control  
other BWT equipment:**

- Automatic cover
- Variable speed pump
- Clogging alarm

In the case of an overflow pool, the  
filtration pump can be slaved to the  
buffer tank electrical panel.

*Controls pool equipment, and more!*

> available in 5 languages  
> for Android and iOS

Allocation of auxiliary connections to devices (booster pump, etc.) by the user (renaming)

Tracks and logs the water temperature, filtration run time and cost of running the filtration system.

Several BWT Pearl Water Connect panels may be paired simultaneously.

## AN INTELLIGENT APPLICATION

### Filtration with 3 operating modes:

- Manual,
- Timer,
- Automatic runs according to a programmed schedule, or depending on the water temperature.

### Underwater light with two operating modes:

- Manual,
- Automatic according to a scheduled programmed.

### Auxiliary devices with 4 operating modes:

- Manual,
- Timer,
- Automatic according to a scheduled programmed
- Slaved to filtration (filtration may also be slaved to auxiliary devices).
