

NEUTRAL

Chlorine neutraliser

1. PROPERTIES

Product formulated to eliminate excess Chlorine and Bromine from the pool water.

2. INSTRUCTIONS FOR USE

Add 100 to 150 mL of NEUTRAL to reduce the concentration of Chlorine in 100 m³ of water by approximately 0.5 mg/L (ppm).

Neutralisation of Chlorine in a pool:

Pour the required dose of NEUTRAL into a container of water and spread the solution evenly over the surface of the pool. Contact time is approximately 30 minutes.

Neutralisation of Chlorine in water to be released into a waste water system:

The quantity required will be injected directly into the pipe by a dosing pump connected to a meter. Action is immediate.

3. TECHNICAL DATA

Appearance	Clear liquid with a pale pink tint
pH	4 +/- 0,5
Density	1.34 +/- 0.02
Storage	Store protected from light, heat and cold
Product identifier	Sodium Bisulphite 38 %

4. PRECAUTIONS FOR USE

DANGER: Releases a toxic gas on contact with acid.

CAUTION: Read the label before use. Keep out of the reach of children. If medical advice is sought, have the recipient or label available.

5. PACKAGING

8848105	Chlorine neutraliser, Neutral - 5 L
