INTO A FUNCTIONAL SPORT AND  
LEISURE ZONE!**

# HURRICANE TURBO SWIM JET SYSTEMS

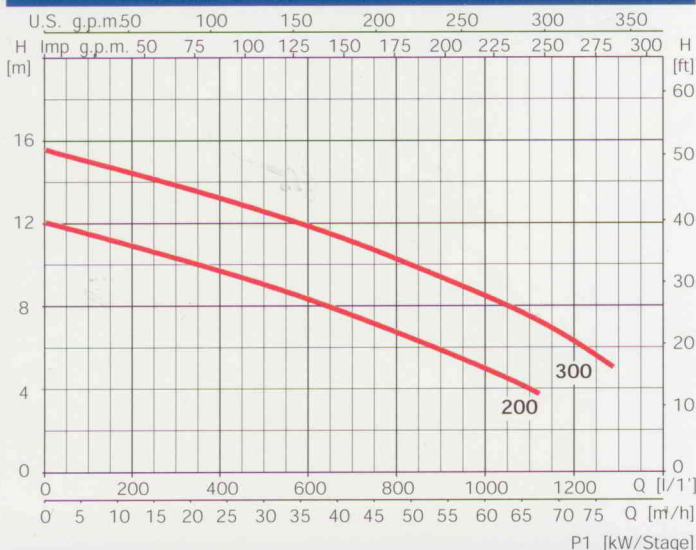

**TRANSFORM YOUR SWIMMING POOL INTO A FUNCTIONAL SPORT AND LEISURE ZONE!**

## Application

ESPA Hurricane Turbo Swim Jet Systems provide a controlled water stream to swim against in your pool or swim spa. The adjustable flow makes the Hurricane System ideal for swimmers of all ages - from people learning to swim through to athletes in training. The flow control is located on the Swim Jet System installed in the pool or swim spa wall, enabling simple adjustment to suit your swimming speed during your swim. The Hurricane System is the perfect companion for your pool or swim spa - feel like you are swimming laps in an olympic sized pool in your own backyard! Manufactured utilising the highest quality materials available the Hurricane Turbo series pump and swim jet will provide many years of trouble free operation.

ESPA have been manufacturing high quality pumps since 1962. Extensive research and a commitment to ongoing product development ensure that ESPA continues to develop a wide range of innovative high quality pumps. ESPA - innovators in water circulation equipment.

## Hurricane Pump Flow Chart

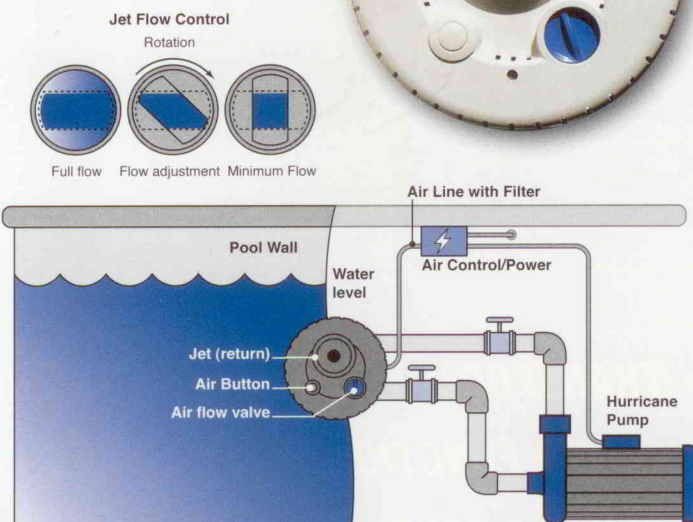

## Hurricane Pump Features

- Pump body and diffuser in glass loaded polypropilen
- Impellor and seal mounting in glass loaded Noryl®
- Mechanical seal in graphite and alumine
- Suction valve in reinforced rubber
- Stainless steel shaft in AISI 420
- Pump motor support in aluminium L-2630
- Motor housing in aluminium L-2521
- Weather protected to IP55
- Continuous operation with built in thermal protection

## Swim Jet System Advantages

- Integrated suction and jet return
- Controls on jet face for swimmer:
  - Adjustable air control for air/water mixing
  - On/Off air button control
  - Adjustable water flow control
- Simple to install
